Alcester Police SNTs. Latest Weekly Report. Sunday 10th August 2025

Based at Alcester Police Station, The Safer Neighbourhood team's primary roles are around crime prevention, problem solving both long standing or emerging issues of community concern and community engagement. We are supported at Alcester by colleagues from Patrol teams whose role is to respond to incidents and investigate crimes that occur in the area 24/7. The SNT is supervised by Inspector Jake Kibblewhite who leads on Neighbourhood Policing for Stratford District and Sgt Ebbs who also oversees neighbourhood Policing in the Shipston on Stour area. The Alcester SNT currently consists of 2 Police officers and 5 Police Community Support Officers, and our contact details are shown above.

Hello all.

This is our latest combined weekly report and prompt to see if you have any questions, suggestions or concerns for the Alcester Police Safer Neighbourhood Teams. Thank you to those that have contacted the Teams this week. If you would like to be removed from this local email circulation list, please let me know asap. This report will also be sent out on the Warwickshire Connected alert system.

For operational and privacy reasons not all the incidents that occur on the Alcester area are listed in this report, although they are recorded on police systems. Please remember to report any anti-social behaviour, suspicious activity or crimes to us as soon as possible - this can be done via the 101 and 999 telephone numbers or if not an emergency via our online reporting forms that can be found on our website. If you have any information or cctv footage that may relate to the incidents listed, please contact us.

New campaign urges drivers to take one extra look for motorcyclists.

Although motorcyclists make up less than 3% of vehicles on the UK's roads, they represent more than 20% of those killed on our roads. So we carried out a deep dive into our data that revealed our 46-65 year old leisure riders on high powered 500cc and above bikes are particularly at risk in Warwickshire.

Whilst drivers or riders 'failing to judge the other person's path or speed' and 'failing to look properly' especially at junctions can be a major cause of collisions involving motorcyclists, 'loss of control' and 'poor turn or manoeuvre' also featured in collisions involving the more powerful motorbikes 500cc over a 5 year period between 2019-2023.

To help improve the safety of motorcyclists on our roads we have launched a new campaign encouraging drivers to look at least twice for motorcyclists especially at junctions where we know most collisions occur. We are also encouraging bikers to upskill. Now is the perfect time for this campaign to run, because July and August are the peak months for motorcyclist collisions.

Please look out for this advert on the back of buses in and around Leamington, Rugby and Nuneaton.

Regardless of how experienced you are, we are encouraging motorcyclists to get in the habit of continually refreshing and improving their skills. There are some great free and subsidised courses available in Warwickshire including: -

PC Darren Bailey, BikeSafe Coordinator said "Our country roads are popular with motorcyclists particularly in the south of the county where we have some great routes. I'm a motorcyclist myself and although these roads are great fun for bikers, they are challenging, and this is where we see the majority of our most serious collisions. "As well as making it a habit to keep on learning to become a safer and more skilful biker, we are urging motorcyclists to wear the correct protective clothing, slow down for junctions and make sure they have been seen by drivers particularly when they approach junctions."
